Bradford, UK · 07774 728596 · zakarya.work@gmail.com · zakarya.me · github.com/ZS-247

PROFILE

Second-year Software Engineering student at the University of Bradford with hands-on experience across systems programming, automation, and web technologies. Having lived in six countries — including Malaysia, Singapore, and Egypt — I bring genuine adaptability, cross-cultural communication, and a problem-solving mindset shaped by diverse environments. I am actively seeking a software engineering internship or part-time role where I can contribute meaningfully and grow alongside an experienced team.

TECHNICAL SKILLS

Languages JavaScript · C · C# · Python · Bash	Systems & Tooling Linux · Nginx · Git · Neovim
Areas of Interest Systems Programming · Automation · AI / LLM Integration	Other Technical Writing · IT Support · Self-hosted Infrastructure

PROJECTS

BeTransparent — Windows Transparency Utility (Active Development)

- Built a lightweight Windows tray application that applies real-time window transparency to any running process.
- Demonstrates low-level Windows API integration, UI design, and user-focused software thinking.
- Available publicly on a self-hosted Gitea instance at git.zakarya.me.

Personal Website & Self-Hosted Infrastructure

- Deployed and maintain a personal website (zakarya.me) alongside a self-hosted Gitea git server, managed on Linux with Nginx.
- Gained practical experience in DNS, reverse proxies, server security, and continuous deployment.

WORK EXPERIENCE

IT Volunteer

2023 – Present

Bradford College IT Department

- Provided hands-on IT support to staff and students, diagnosing hardware and software issues.
- Developed practical troubleshooting skills in a real-world institutional environment.
- Communicated technical solutions clearly to non-technical users.

Administrative Assistant

2021 – 2022

GP Surgery

- Managed scheduling, correspondence, and patient inquiries on behalf of the GP.

- Provided technical support for the surgery's website, applying early web knowledge in a professional setting.
- Drafted documents and presentations, developing attention to detail and written communication skills.

Martial Arts Coaching Assistant

Ongoing

Brazilian Jiu-Jitsu Club

- Assisted in coaching classes, giving clear instruction and feedback to students of varying skill levels.
- Built leadership, patience, and the ability to break down complex techniques into digestible steps.

EDUCATION

BSc (Hons) Software Engineering — Year 2

2023 – Present

University of Bradford

Relevant modules: Data Structures & Algorithms, Operating Systems, Software Design, Databases

International Business (1 year)

2021 – 2022

University of Huddersfield

Broadened understanding of global business context; complements international background.

High School Diploma

2014 – 2020

Whitmore High School

ADDITIONAL INFORMATION

International Experience

Having lived and studied across six countries including Malaysia, Singapore, Egypt, and Saudi Arabia, I am comfortable operating in multicultural environments and adapt quickly to new teams and contexts.

Brazilian Jiu-Jitsu

Trained across clubs worldwide. The sport has instilled discipline, strategic thinking, and the ability to stay composed under pressure — qualities I carry into my technical work.

Open Source & AI

Passionate about open-source software and actively exploring AI/LLM integration to build productivity tools and assistive technology.
